

LESSON PLAN 7 – Three blind mice

Year levels - Junior Primary

Curriculum links

- Elaboration | Year 1 | Science | Science Inquiry Skills | Questioning and

MATERIALS

- A bag or container to collect things in
- A blind fold [more fun than closing your eyes!]

ACTIVITY

1. **Introduction:** Do you know what's in your yard? Do you know what's there when you can't see it?
2. Grab a bag and collect objects from nature. Collect leaves, sticks, rocks and other natural objects. Choose objects with different textures, smooth, furry and even slimy (but nothing sharp!)
3. Blind fold a friend or your classmate. Get them to pop their hand in the bag and pull out the objects one by one. Can they guess what's in the bag?
4. Swap places and take turns.

Plenary

- How many senses did you use to guess the objects?
